

Facial Enhancements

Anti-Aging Red Light Therapy | \$ 15

Red light helps cells repair themselves and become healthier, giving a more youthful and radiant look.

Acne Blue Light Therapy | \$ 15

Can treat multiple skin conditions, such as can improve skin texture and reduce enlarged oil glands. It can also help remove sun spots, acne, and even scars that were originally caused by acne.

Celluma LED Treatment | \$ 25

Uses specific wavelengths of light energy to improve cellular health by accelerating the repair and replenishment of compromised tissue cells for enhanced skin appearance and pain relief.

Nano Treatment | \$ 45

Uses nanotechnology to temporarily create micro-channels in the skin's surface, allowing products and nutrients to be deeply penetrated to the dermal layer where collagen stimulation happens.

High Frequency | \$ 20

Is a popular skincare technique that is used to treat a variety of conditions, including acne management, enlarged pores, fine lines and wrinkles, also puffy and dark eyes.

Galvanic Technology | \$ 20

Used to stimulate skin cells, soften your skin and drive serums or creams deep into the layers of the skin. Also helps improv hydration levels and blood circulation to your face.

RF (Radio Frequency) Therapy | \$ 20

Uses low energy radiation to heat the deep layer of the skin to stimulate the production of collagen to help improve signs of wrinkles and sagging skin.

Balancing Yellow Light Therapy | \$ 15

Used to increase wound healing, collagen induction, skin hydration and overall health of your skin.

Microdermabrasion | \$ 25

Used to exfoliate the skin, reduces signs of aging and helps make the skin look for even.

Gua Sha Crystal Therapy | \$ 25

Reduces puffiness, improves blood circulation, lymphatic drainage and skin elasticity. It can also reduce muscle tension and wrinkles.

Cold Hammer Therapy | \$ 25

Treatment used to tighten the skin, as well as to reduce and treat redness of the skin.
